Dear All

This years SuperCar weekend certainly went with a bang, and no I don't mean anyone's header tank blew up! (Well I hope not anyway). The Saturday began with fine weather as the cars started to turn up at around 11:00am at the Millennium Point in Birmingham. First to arrive were Chris P, Dave Woodyard & Claire Usher, Paul Salsbury & Mel. This gave us chance to catch up with old friends and make new ones and plenty of good photo opportunities while the DeLorean's were parked outside the spectacular new stainless steel and glass building. While I was passing time in the IMAX theatre the local television news turned up and were busy interviewing Chris and Dave for Sunday's evening news. At around 5 pm 12 cars started up and were off in convoy, now including Jan van de Wouw's car from Holland and another from Belgium, all driving off to Hall Green greyhound racing stadium for a "night at the dogs", with all the cars safely parked up overnight and security watchman on guard.

Early rise next morning (well around 10am actually) the drive in convoy down the M40 to Gaydon. Well the sun shone and with air conditioning blowing out full blast (I don't think anyone had any overheating

problems) a record breaking 23 cars arrived safely at Gaydon with hords of folks lining the way as the cavalcade drove down the driveway to park in front of the museum. Plenty to do and chat about all day, with cakes and drinks finishing off the day at around 4pm.

Jan Van de Wouw tells us about his SuperCar weekend experience in November's magazine especially as he drove all the way from Holland to be with us.

Chris Parnham is undecided if a two day event should be repeated next year, pass on any thoughts, ideas or suggestions you may have to Chris.

I am very pleased to announce

that our very own Stainless Steel guru Chris Nicholson is no longer going out to work in the US and will thankfully be staying closer to home.

The number of cars for sale on the back page of the mag has drastically decreased, Dave Howarth the clubs treasurer says "he has never known of so many cars be sold in such a short period of time". Well don't despair if you are in the market for buying a car, we have plenty of experienced members who have imported cars and are willing to share their experiences with you.

That's about everything for now.

Very best wishes.
Andy.
